

RHIANNON FISHER , M.Sc., RPA.

Lead Archaeologist, Osteologist

Education Background:

M.Sc. Bioarchaeology, Human Osteology, University of Exeter, Exeter, United Kingdom (2016)

B.Sc. Double Major in Biology and Bioarchaeological Anthropology, University of Western Ontario, London, Ontario (2011)

Career:

Golder Associates Ltd. (now WSP Canada Inc.) – Mississauga & London – Ontario (2011 to present)

Rhiannon is a professionally licensed archaeologist in Ontario (P468) and the Archaeology Team Lead for the GTA and Southwestern Ontario within WSP Golder's Earth and Environment Group. Rhiannon has a Master's degree in Bioarchaeology specializing in Human Osteology. Rhiannon has managed the excavation of archaeological sites across southern Ontario ranging from the Archaic Period to the late 19th century. She has primarily worked on large projects which span over several years such as the Enbridge Line 10 Replacement Project.

Rhiannon works primarily in a project management role where she manages archaeological projects including Sage 1,2, 3 assessments and Stage 4 mitigation. She also carries out archaeological surveys, test excavations, and mitigative excavations in the field, and responds to clients' requests. Rhiannon works closely with Indigenous groups incorporating their traditional knowledge and expertise into archaeological strategies.
